## ABOUT

" Photography is something that comes from inside, without any rationality or deep thinking. For me it is a feeling and very intuitive.

I am inspired a lot by the strength and beauty of women and nature, I think this is something that you will always see in my work. I want to reflect and show the beauty of us women, the strength we have and the elegance. "

## ABOUT

Using light and shadow to add drama to a simple shot of a cut-glass cheekbone, definition to a close-up of a knitted cuff, or breath-taking contrast to an otherwise delicate dress.

The resulting images bring Rebekka's visions to life, from the way jewellery is positioned and the hair and make-up direction to the styling and beyond.

## ABOUT

On a personal level, she is warm and curious, helping clients to make mood boards and making creative suggestions to enhance the outcome of each shoot, and encouraging models to simultaneously reveal softness and courage.

# Летние beauty-ПРАВИЛА

Поддержание красоты в самый тёплый сезон года сводится к трём главным правилам: защите кожи лица и тела, а также волос от вредного воздействия солнца (даже когда его нет на небе), тщательному очищению кожи (за пыль, песок и остатки морской соли она точно не скажет вам «спасибо») и её постоянному увлажнению. Подсказываем надёжный арсенал, который поможет превратить соблюдение этих правил в сплошное удовольствие.
